

# UNSTOPPABLE

## R 521EWXT RAM

part #: 274285000-1

### PACK AN UNDERWATER PUNCH.

What it does above water is incredible. What it does underwater is downright absurd. This ram is the first of its kind. It allows you to create wide rescue openings while submerged in fresh water without being encumbered by any hoses or power units. The sharp claw at both ends enables you to apply it effectively in almost any precarious situation — especially underwater.
